II. By virtue of this Supplement, the sections of the Prospectus entitled: (A) “Summary of the Principal Documents – Covered Bond Swap Agreement” and (B) “Glossary”, are supplemented as follows:

- A. The first paragraph under the section entitled “Summary of the Principal Documents – Covered Bond Swap Agreement” is deleted and replaced with the following:

“To provide a hedge against currency and/or other risks, in respect of amounts received by the Guarantor under the Interest Rate Swap Agreement and amounts payable in respect of its obligations under the Covered Bond Guarantee, the Guarantor has entered into the Covered Bond Swap Agreement with the Covered Bond Swap Provider in respect of each Series of Covered Bonds issued to date, and will enter into a new ISDA Master Agreement, schedule and confirmation(s) and credit support annex, for each Tranche and/or Series of Covered Bonds issued at the time such Covered Bonds are issued. The Covered Bond Swap Provider and the Guarantor will agree to swap Canadian dollar floating rate amounts received by the Guarantor under the Interest Rate Swap Agreement (described above) into the exchange rate specified in the Covered Bond Swap Agreement relating to the relevant Tranche or Series of Covered Bonds. This will allow the Guarantor to hedge certain currency and/or other risks in respect of amounts received by the Guarantor under the Interest Rate Swap Agreement and amounts payable or that may become payable in respect of its obligations under the Covered Bond Guarantee. However, in certain circumstances, the amounts received by the Guarantor under the Covered Bond Swap Agreement may not match its obligations under the Covered Bond Guarantee. For example, in the event that a reference rate on a specified date is not available, the fallback provisions for determining the reference rate in such circumstances under a Series of Covered Bonds, and thus, the amounts payable by the Guarantor under the Covered Bond Guarantee, may be different than the fallback provisions for determining the reference rate under the relevant Covered Bond Swap Agreement which is used to determine the amounts received by the Guarantor under the Covered Bond Swap Agreement. In addition, the calculation of a reference rate under a Series of Covered Bonds may include an observation look back period which may not be included in the determination of that reference rate under the Covered Bond Swap Agreement. No cash flows will be exchanged under the Covered Bond Swap Agreement unless and until the Covered Bond Swap Effective Date has occurred.”

- B. The definitions of the following defined terms in the section entitled “Glossary” are deleted and replaced with the following:
