Diversified Fund

NBI Tactical Asset Allocation Fund

Notes on forward-looking statements

This report may contain forward-looking statements concerning the Fund, its future performance, its strategies or prospects or about future events or circumstances. Such forward-looking statements include, among others, statements with respect to our beliefs, plans, expectations, estimates and intentions. The use of the expressions "foresee", "intend", "anticipate", "estimate", "assume", "believe" and "expect" and other similar terms and expressions indicate forward-looking statements.

By their very nature, forward-looking statements imply the use of assumptions and necessarily involve inherent risks and uncertainties. Consequently, there is a significant risk that the explicit or implicit forecasts contained in these forward-looking statements might not materialize or that they may not prove to be accurate in the future. A number of factors could cause future results, conditions or events to differ materially from the objectives, expectations, estimates or intentions expressed in such forward-looking statements. Such differences might be caused by several factors, including changes in Canadian and worldwide economic and financial conditions (in particular interest and exchange rates and the prices of other financial instruments), market trends, new regulatory provisions, competition, changes in technology and the potential impact of conflicts and other international events.

The foregoing list of factors is not exhaustive. Before making any investment decision, investors and others relying on our forward-looking statements should carefully consider the foregoing factors and other factors. We caution readers not to rely unduly on these forward-looking statements. We assume no obligation to update forward-looking statements in the light of new information, future events or other circumstances unless applicable legislation so provides.

Management Discussion of Fund Performance

Results of Operations

For the six-month period ended June 30, 2023, the NBI Tactical Asset Allocation Fund's Advisor Series units returned 2.95% compared to 6.19% for the Fund's blended benchmark. The broad-based indices, the Morningstar® Canada Liquid Bond Index (CAD), the Morningstar® U.S. Large Cap Index (CAD) and the Morningstar® Canada Large-Mid Index (CAD), returned 2.48%, 16.67% and 6.00% respectively. Unlike the indices, the Fund's performance is calculated after fees and expenses. Please see the *Past Performance* section for the returns of all of the Fund's series, which may vary mainly because of fees and expenses.

Certain series of the Fund, as applicable, may make distributions at a rate determined by the manager. This rate may change from time to time. If the aggregate amount of distributions in such series exceeds the portion of net income and net realized capital gains allocated to such series, the excess will constitute a return of capital. The manager does not believe that the return of capital distributions made by such series of the Fund have a meaningful impact on the Fund's ability to implement its investment strategy or to fulfill its investment objective.

The Fund's net asset value rose by 4.53% over the period, from \$4.527 billion as at December 31, 2022 to \$4.732 billion as at June 30, 2023.

After an especially challenging 2022 for investors, the first half of 2023 turned out to be quite positive, with most of the stock and bond market segments posting gains as of June 30, 2023. Indeed, despite a few jolts caused by the failure of certain US regional banks, the combination of slowing inflation and the resilience of the US economy was enough to inspire optimism in the markets.

As a result, U.S. equities (S&P 500) posted a total return of 16.9% over the period, a performance largely attributable to the spectacular comeback of the technology giants, the market segment that has done best over the past six months. Abroad, the EAFE developed countries' equity index also performed well (+12.1% in US\$), buoyed by an economic situation in Europe that proved less dire than expected, as well as renewed enthusiasm for Japanese equities. Although lower, the Canadian stock market also posted gains (+5.7% for the S&P/TSX) that were slightly higher than those of emerging markets (+5.1% for the MSCI ME in US\$), a region undermined by a lackluster economic recovery in China.

For their part, bonds also delivered positive performances over the period, albeit more modest. Specifically, the Canadian benchmark index rose by 2.5% (FTSE Canada Universe), outperformed by U.S. high-yield credit (+5.4% BofA High Yield) and long-term bonds (+4.7% FTSE Canada Long).

Finally, most commodities declined during the first half of 2023, illustrating deflationary pressures against a background of restrictive monetary policies. Nevertheless, the price of gold managed to record gains (+5.5% in US\$), supported by an increasingly tense geopolitical context and a marginally weaker US dollar (-0.6% for the DXY index). Meanwhile, the Canadian dollar appreciated by 2.4% against the greenback, benefiting notably from the Bank of Canada's preference for additional interest rate hikes.

The fund made one strategy adjustment during the quarter. In line with its previously stated intentions, the manager took advantage of the rise in equities combined with the significant increase in bond yields to further reduce the risk in its asset allocation. Accordingly, on February 28, the manager reduced its equity allocation in exchange for bonds. Within equities, the fund slightly reduced the weight of U.S. equities in favour of the EAFE region.

In this context, the fund underperformed the benchmark for the period. As of June 30, these strategy changes had a marginally negative impact on the fund's performance, with equities (+4.2% for the benchmark CAD equity index) outperforming bonds (+1.5% for the benchmark bond index).

Recent Developments

The fund is 30% underweight in equities, 20% overweight in cash, and 10% overweight in bonds. Within equity markets, it held an overweight in Canadian equities versus emerging market equities.

As the current economic climate remains highly uncertain, the manager continues to anticipate significant market volatility. In the best-case scenario, a better balance in the labour market would lead to a deceleration in wage growth and core inflation, thus opening the door to less restrictive monetary policies. Yet, while not impossible, this scenario seems unlikely at this stage, as the cautionary signals continue to mount.

As such, although the manager still expects a sustained decline in inflation and an imminent pause in interest rate hikes, the combination of restrictive monetary policies, a vulnerable job market, and weak corporate earnings prospects calls for a more defensive investment strategy. What's more, several early signs of an economic slowdown are pointing toward the second half of the year, when the impact of previous rate hikes should become more tangible.

Against this background, the manager maintains a defensive asset allocation through underweight equities. Conversely, the fund holds an overweight in cash and bonds. In terms of geographic allocation, the Fund remains overweight in Canadian equities, which benefit from attractive valuations, versus emerging markets, where the economic backdrop looks ever more challenging, and which are more exposed to rising geopolitical tensions between the West and China.

On May 1, 2023, the Fund's independent review committee (the "IRC") was increased to four members when Stéphanie Raymond-Bougie was appointed as IRC member.

Related Party Transactions

National Bank of Canada ("the Bank") and its affiliated companies' roles and responsibilities related to the Fund are as follows:

Trustee

National Bank Trust Inc. ("NBT"), a wholly-owned indirect subsidiary of the Bank, is the Fund's trustee. In this capacity, it is the legal owner of the Fund's investments.

Custodian and Registrar

Natcan Trust Company ("NTC") acts as registrar for the Fund's securities and the names of securityholders. NTC also acts as the Fund's custodian. The fees for NTC's custodial services are based on the standard rates in effect at NTC.

Agent for securities lending transactions

NTC acts as the agent for securities lending transactions acts on behalf of the Fund in administering securities lending transactions entered into by the Fund. NTC is an affiliate of the Manager.

Fund Manager

The Fund is managed by National Bank Investments Inc. ("NBII"), which is a wholly-owned subsidiary of the Bank. Therefore, NBII provides or ensures the provision of all general management and administrative services required by the Fund's current operations, including investment consulting, the arrangement of brokerage contracts for the purchase and sale of the investment portfolio, bookkeeping and other administrative services required by the Fund.

The Manager pays the operating expenses of the Fund other than its "Fund costs" (defined below) (the "variable operating expenses"), in exchange for the Fund's payment to the Manager of annual fixed-rate administration fees with respect to each series of the Fund.

The administration fees are equal to a specified percentage of the net asset value of each series of the Fund, calculated and paid in the same manner as the Fund's management fees. The variable operating expenses payable by the Manager include, but are not limited to: transfer agency and recordkeeping costs; custodial costs; accounting and valuation fees; audit fees and legal fees; costs of preparing and distributing financial reports, simplified prospectuses, annual information forms, Fund Facts, continuous disclosure material and other securityholder communications; and costs of trustee services relating to registered tax plans, as applicable.

In addition to administration fees, the Fund shall also pay certain Fund costs, namely: taxes (including, but not limited to, GST/HST and income taxes); costs of compliance with any changes to existing governmental or regulatory requirements introduced after August 1, 2013; costs of compliance with any new governmental or regulatory requirements, including any new fees introduced after August 1, 2013; interest and borrowing costs; costs related to external services that were not commonly charged in the Canadian mutual fund industry as at August 1, 2013; Independent Review Committee costs, including compensation paid to IRC members, travel expenses, insurance premiums and costs associated with their continuing education; and variable operating expenses incurred outside of the normal course of business of the Fund.

The Manager may, from time to time and at its sole discretion, decide to absorb a portion of a series' management fees, administration fees or Fund costs.

As described under the heading *Management Fees*, the Fund pays annual management fees to NBII as consideration for its services.

Portfolio Manager

The Manager has appointed National Bank Trust Inc. ("NBT"), an indirect wholly-owned subsidiary of the Bank, as the portfolio manager for the Fund. A flat fee is payable annually to NBT for its management services.

Distribution and Dealer Compensation

NBII acts as principal distributor for the Fund. In this capacity, NBII buys, sells and swaps securities through Bank branches and the National Bank Investments Advisory Service in Canadian provinces and territories, and through external registered representatives. Fund securities are also offered by National Bank Financial Inc. (including its division National Bank Direct Brokerage), CABN Investments (a division of NBII) and other affiliated entities. Brokers may receive, depending on the distributed series, a monthly commission representing a percentage of the average daily value of the securities held by their clients.

Brokerage Fees

The Fund may pay broker's commissions at market rates to a corporation affiliated with NBII. The brokerage fees paid by the Fund for the period are as follows:

	Period ended June 30, 2023
Total brokerage fees	61,312.53
Brokerage fees paid to National Bank Financial	61,312.53

Holdings

As at June 30, 2023, National Bank Investments Inc. held 109.49 Fund securities for a value of \$1,208.80, which represented close to 0.0000% of the net asset value of the Fund at that date. Transactions between National Bank Investments Inc. and the Fund were carried out in the normal course of business and at the Fund's net asset value as at the transaction date.

As at June 30, 2023, National Bank Trust Inc. held 1.12 Fund securities for a value of \$6.60, which represented close to 0.0000% of the net asset value of the Fund at that date. Transactions between National Bank Trust Inc. and the Fund were carried out in the normal course of business and at the Fund's net asset value as at the transaction date.

Registered Plan Trust Services

NTC receives a fixed amount per registered account for services provided as trustee for registered plans.

Administrative and Operating Services

The provision of certain services was delegated by the Fund Manager, NBII, to National Bank Trust Inc. ("NBT"), a wholly-owned indirect subsidiary of the Bank. These include accounting, reporting and portfolio valuation services. The fees incurred for these services are paid to NBT by the Fund manager.

Management Fees

The Fund pays annual management fees to the Fund manager for its management services. As the Fund invests in underlying funds, the fees and expenses payable in connection with the management of the underlying funds are in addition to those payable by the Fund. However, the Fund manager makes sure that the Fund does not pay any management (or operating) fees that, to a reasonable person, would duplicate a fee payable by the underlying fund for the same service.

The fees are calculated based on a percentage of the Fund's daily net asset value before applicable taxes and are paid on a monthly basis. Under the *Distribution* heading, expenses include the broker's compensation consisting of the maximum annual trailer fees and sales commissions paid to brokers. Under the *Other* heading, the fees relate mainly to investment management, investment advisory services, general administration and profit. The breakdown of major services provided in consideration of the management fees, expressed as an approximate percentage of the management fees is as follows:

Past Performance

The performance of each series of the Fund is presented below and calculated as at December 31 of each year. It assumes that all distributions made in the periods shown were reinvested in additional securities and does not take into account sales, redemption charges, distributions, or optional charges that would have reduced returns. Past performance of a series of a Fund does not necessarily indicate how it will perform in the future.

^(*) Excluding sales commissions paid on the Advisor Series with the low sales charge option and deferred sales charge option, which are not paid for out of the

^(**) Rate applicable for all investments, including Advisor Series existing before May 14, 2015, systematic investment programs, reinvested distributions and switches.

^(***) For Series N and NR, offered only to investors using the NBI Private Wealth Management service ("PWM"), management fees only cover management of fund investments, i.e. the fees related to management of fund portfolios constituting the PWM profiles. General administration services, trailer fees and sale commissions paid to brokers are covered by the PWM's service fees, which are paid directly by investors.

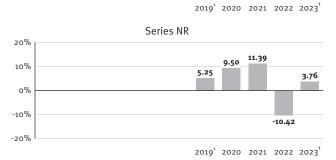

^(****) There are no management fees paid by the Fund with respect to the Series O. Instead, Series O securityholders pay a negociated administration fee directly to National Bank Investments.

Annual Returns

- (1) This information is derived from the Fund's Annual Audited Financial Statements and Interim Unaudited Financial Statements. The net assets per unit presented in the financial statements might differ from the net asset value calculated for fund pricing purposes. The differences are explained in the notes to the financial statements.
- (2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase or decrease from operations is based on the average number of units outstanding over the accounting period.
- $^{(3)}$ Distributions were paid in cash or reinvested in additional units of the Fund, or both.
- ⁽⁴⁾ The net assets are calculated in accordance with IFRS.
- $^{ ext{(s)}}$ This information is provided as at the last day of the accounting period shown.
- (6) Management expense ratio is based on total expenses including sales taxes for the accounting period indicated (excluding commission, other portfolio transaction costs and withholding taxes) and is expressed as an annualized percentage of daily average net value during the accounting period.
- (7) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the accounting period. The trading expense ratio includes, if necessary, the trading expenses from its underlying funds, as described in Article 15.2 of Regulation 81-106.
- (8) The Fund's portfolio turnover rate indicates how actively the Fund portfolio's manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the accounting period. The higher a Fund's portfolio turnover rate in an accounting period, the greater the trading costs payable by the Fund in the accounting period, and the greater the chance of an investor receiving taxable capital gains in the accounting period. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
